

KEVIN WU

ENTREPRENEUR / DESIGNER / DEVELOPER

EDUCATION

2013 - Present

University of California, Berkeley

Electrical Engineering / Computer Science

PROJECTS

2015

The Resistance

The Resistance is a popular board game that has sold nearly half a million copies. I led and recruited a team of developers in partnership with the licensed publisher to build an official mobile adaptation for iOS and Android.

 unboard.io/resistance

2015

Epic Everything

Led a team of over 30 people in building and marketing a Unity real-time collectible card game. Raised over \$40,000 on Kickstarter before pivoting and ultimately deciding to open source the project.

2014

Elevate Africa

Elevate Africa is a nonprofit that supports entrepreneurs in the poorest regions of Africa. They needed a website and crowd-funding system. I led a team of designers and developers in building it in Ruby on Rails.

2013

USOMC

USOMC has been an internationally recognized music competition for youth since 1992. I helped design and develop a website for them in Ruby on Rails with an extensive competition management system.

EXPERIENCE

2014 - Present

Unboard

Founder / CEO

Unboard is a game studio that brings the magic of tabletop games to the mobile world. We were in the startup accelerator Free Ventures for Fall 2014, and have so far earned over \$10,000 in revenue.

2015

Leada

Web Developer / UI/UX Designer

Leada is a Y Combinator-backed online data science course provider. I redesigned and redeveloped their website to reflect a change in their target market, from consumers to businesses and universities.

 teamleada.com

2014

Salesforce

Mobile Developer / UI/UX Designer

Designed and developed several enterprise mobile applications in Apex and Visualforce on the Salesforce1 platform.

2012 - 2014

Outgame

Cofounder / CEO

Outgame is an event management system for the tabletop and video game community. We helped organize events with over \$25,000 in prizes and hundreds of participants.
